

# Danish language teaching

If you are a foreign national over the age of 18 and have legal residence in Denmark, you have the right to free Danish lessons at a language school. Free Danish lessons apply to refugees, individuals that have been granted family reunification, immigrants/Nordic nationals, border commuters and certain Danish citizens.

As a point of departure, you do not have the right to Danish lessons if you have been granted residence with a view to enrolling on basic primary and lower secondary education or a youth education programme, including upper secondary education. Special rules, apply, however, if you are an EU citizen, an EEA citizen or a Swiss national.
